EiD THEME DESiGN Creator / Seller Partner Terms

1. Scope and application

These terms govern applications, approved accounts, content submissions, distribution, revenue participation, statements, invoices and payouts. Registration is an application and does not guarantee approval, publication or sales.

2. Accurate trader information

The Partner must provide accurate and current identity, address, telephone, email, company, trade-register, tax and payout-account information and supporting evidence when reasonably requested. Business applicants confirm that their representative is authorised to act for the business.

3. Account and review

The Partner must protect account credentials and promptly report suspected misuse. EiD THEME DESiGN may verify information, request corrections, reject an application or suspend functions where information is incomplete, inconsistent, unlawful or presents a material security, sanctions, fraud or rights risk.

4. Ownership and individual Work Licence

The Partner retains ownership of the Partner's original intellectual property unless otherwise agreed in writing. Registration alone does not license an uploaded work. Before a Partner work can enter commercial store submission, the Partner must accept a separate Work Licence Agreement linked to that exact work and file hash. Each accepted Work Licence grants EiD THEME DESiGN a non-exclusive, worldwide, royalty-bearing licence for an indefinite term until validly terminated under these Terms to receive, store, reproduce, technically process, adapt, resize, convert, optimise, package, preview, promote, market, submit, distribute, sell and maintain the work and to grant only the limited sublicences reasonably necessary to supported stores, platforms and technical service providers.

5. Content rules and AI transparency

The Rights and AI Declaration forms part of these terms. The Partner must not submit unlawful, infringing, deceptive, malicious, privacy-invasive or exploitative content and must provide accurate AI and third-party asset disclosures.

6. Revenue participation

New private creators may request a whole percentage from 1% to 20% of Net Revenue. Artists and companies registering as a business may request a whole percentage from 1% to 50%. Existing accepted rates and finalized historical settlements remain unchanged. A requested rate becomes binding only after written approval. Net Revenue means amounts actually received for the content less applicable taxes, store commissions and fees, refunds, chargebacks, reversals, currency-conversion costs and other documented transaction-specific deductions.

7. Statements and payouts

Partner Terms

Statements identify the period, relevant Net Revenue, agreed percentage and Partner amount. Payout requires approval, completed verification, valid payment and tax information and the applicable minimum threshold. Disputed, reversed, unlawful or insufficiently documented amounts may be held while reasonably investigated.

8. Taxes and self-billing

The Partner remains responsible for registrations, declarations and taxes applicable to the Partner. Where separately agreed and legally permitted, EiD THEME DESiGN may issue self-billing invoices for a business Partner. The Partner must verify each document and promptly report incorrect details. A private-creator payout statement is not presented as a VAT invoice.

9. Notices, takedowns and cooperation

EiD THEME DESiGN may restrict or remove content following a store decision, credible rights notice, legal obligation or reasonable compliance concern. The Partner will receive available reasons and an opportunity to provide information where legally and operationally possible.

10. Work and account termination

Termination of an individual Work Licence and termination of the Partner account are separate processes. A valid termination ends future distribution rights prospectively from its effective date. It does not erase acceptance evidence or invalidate rights already exercised, and limited continuing rights remain only as reasonably necessary for previous customer purchases, downloads or re-downloads, accounting, refunds, chargebacks, legal compliance, record keeping, store obligations, product withdrawal and technically necessary wind-down activities.

11. Withdrawal and retained records

EiD THEME DESiGN will stop new publication of a terminated work and take commercially reasonable steps to request withdrawal from participating stores. External-store withdrawal may take time. Source packages and working copies no longer required for these limited continuing purposes will be securely removed under the documented retention process. Work metadata, cryptographic hashes, accepted licence evidence, settlements, invoices, tax, fraud-prevention and audit records are preserved where legally or contractually required and are not used to restart distribution.

12. Liability

Nothing excludes liability that cannot legally be excluded. Subject to mandatory law, neither party is liable for indirect or consequential loss, and EiD THEME DESiGN does not guarantee uninterrupted availability, acceptance, publication, compatibility or sales volume.

13. Independent program, changes, law and records

The EiD THEME DESiGN Partner Program is an independent creator program operated by EiD THEME DESiGN. It is not operated, sponsored or endorsed by Samsung Electronics. Approved content may be distributed through supported third-party stores, including Galaxy Store / Galaxy Themes, subject to the applicable store approval processes, terms and policies. Material changes require a new version and renewed acceptance before they bind future activity. Dutch law applies, subject to mandatory protections that cannot be waived. Accepted document versions and completed financial records are retained for evidence, accounting, fraud prevention and

Partner Terms

legal obligations. TODO: final jurisdiction, withdrawal and retention language requires review by qualified Dutch counsel.
